### Section 4: First-Aid Measures

**General advice:** Consult a physician. Show this safety data sheet to the doctor in attendance. Move out
of dangerous area.

**After skin contact:** In case of contact, immediately flush skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Wash clothing before reuse. Thoroughly clean shoes before reuse. Get medical attention immediately.

**After eye contact:** Immediately flush eyes with plenty of water for at least 15 minutes, lifting lower and upper eyelids occasionally. Get medical attention immediately.

**After inhalation:** Remove to fresh air. If breathing is difficult, give oxygen. Get medical attention immediately.

**After swallowing:** Give large quantities of water or milk if available. Never give anything by mouth to an unconscious person. Get medical attention immediately.

---

**Section 5: Fire-Fighting Measures**

**Fire:** Not considered to be a fire hazard. May react with metals or heat to release flammable hydrogen gas.

**Suitable extinguishing agents:** Water or water spray. Neutralize with soda ash or slaked lime.

**Advice for firefighters:** Wear self-contained breathing apparatus for firefighting if necessary.

---

**Section 6: Accidental Release Measures**

**Personal precautions:** Wear respiratory protection. Avoid breathing vapors, mist or gas. Ensure adequate ventilation. Evacuate personnel to safe areas. For personal protection see section 8.

**Measures for environmental protection:** Do not let product enter drains.

**Measures for cleaning/collecting:** Wear respirator, chemical safety goggles, rubber boots and heavy rubber gloves. Absorb onto vermiculite and hold for waste disposal. Ventilate area and wash spill site after material pickup is complete.

---

**Section 7: Handling and Storage**

**Handling:** Avoid contact with skin and eyes. Avoid inhalation of vapor or mist. Wear appropriate NIOSH/MSHHA approved respirator, chemical resistant gloves, safety goggles and other protective clothing. Mechanical Exhaust required.

**Storage:** Store in a cool, dry place. Store in a tightly closed container.

---

**Section 8: Exposure Controls/Personal Protection**

**General protective and hygienic measures:** Use adequate general or local exhaust ventilation to keep airborne concentrations below the permissible exposure limits.

**Breathing equipment:** Following the OSHA respirator regulations found in 29CFR 1910.134 or European Standard EN 149.

**Protection of hands:** Wear appropriate protective gloves to prevent skin exposure.
**Eye protection:** Wear safety glasses and chemical goggles if splashing is possible.

**Clothing:** Wear appropriate protective clothing to minimize contact with skin.
