Section 4. First Aid Measures

- Inhalation:Remove to fresh air. If breathing is difficult, give oxygen. Get medical attention immediately.Ingestion:Give large quantities of water or milk if available. Never give anything by mouth to an
unconscious person. Get medical attention immediately.
- **Skin Contact:** In case of contact, immediately flush skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Wash clothing before reuse. Thoroughly clean shoes before reuse. Get medical attention immediately.
- **Eye Contact:** Immediately flush eyes with plenty of water for at least 15 minutes, lifting lower and upper eyelids occasionally. Get medical attention immediately.

Section 5. Fire Fight Measures

Fire:	Not considered to be a fire hazard. May react with metals or heat to release flammable hydrogen gas.
Explosion:	Not considered to be an explosion hazard.
•	
Fire Extinguishing Media:	Water or water spray. Neutralize with soda ash or slaked lime.
Special Information:	In the event of a fire, wear full protective clothing and NIOSH-approved self-
	contained breathing apparatus with full face piece operated in the pressure demand
	or other positive pressure mode.

Section 6. Accident Release Measures

General Information: Use proper personal protective equipment as indicated in Section 8

Spills/Leaks:	Wear respirator, chemical safety goggles, rubber boots and heavy rubb gloves. Absorb onto vermiculite and hold for waste disposal. Ventilate c and wash spill site after material pickup is complete.		
Section 7. Handli	ng and Storage		
Handling:	Wear appropriate NIOSH/MSHHA approved respirator, chemical resistant gloves, safety goggles and other protective clothing. Mechanical Exhaust required.		
Storage:	Store in a cool, dry place. Store in a tightly closed container		
Section 8. Exposu	re Control and Personal Protection		
Engineering Controls Eye: Skin: Clothing: Respirators:	Use adequate general or local exhaust ventilation to keep airborne concentrations below the permissible exposure limits Wear safety glasses and chemical goggles if splashing is possible Wear appropriate protective gloves to prevent skin exposure Wear appropriate protective clothing to minimize contact with skin Following the OSHA respirator regulations found in 29CFR 1910.134 or European Standard EN 149.

Section 10. Stability and Reactivity

Stability: Hazardous Decomposition Products: Hazardous Polymerization:	Stable under ordinary conditions of use and storage. When heated to decomposition, emits toxic hydrogen chloride fumes and will react with water or steam to produce heat and toxic and corrosive fumes. Thermal oxidative decomposition produces toxic chlorine fumes and explosive hydrogen gas.		
Incompatibilities:	Will not occur. A strong mineral acid, concentrated hydrochloric acid is highly reactive with strong bases, metals, metal oxides, hydroxides, amines, carbonates and other alkaline materials. Incompatible with materials such as cyanides, sulfides, sulfites, and formaldehyde.		
Conditions to Avoid:	Heat, direct sunlight.
